The YAS reserves the right to restrict the movement of the public to certain areas whilst livestock judging or movement is taking place.

Risk assessments are legal documents and will be made available by the YAS in the event of any subsequent claim or investigation against the YAS or an exhibitor or contractor for negligence or damages arising from any act or incident at Countryside Live.

FOR YOUR SAFETY

Evacuation & Safety Announcements

In the unlikely event of an evacuation of the Showground please follow any instructions given to you by Stewards, Officials or Police Officers or over one of the public address systems. You will be directed to vacate the Showground by the nearest exit and to go to the back of the car park opposite the exit to wait for further instructions, unless advised otherwise.

If a full or partial evacuation of the Main Ring or White Rose Ring Grandstands, Exhibition Halls or Fashion Pavilion is required an announcement will be made over the PA system in those areas.

Please listen carefully to any safety announcement which may direct you to a specific area on or around the Showground. Evacuation should be undertaken calmly and quickly taking any personal items with you. Stewards, the Police and Officials will direct and provide you with further information. You should not attempt to re-enter the Showground or a building until you are advised to do so for safety reasons.

Health & Hygiene

Visiting Countryside Live is an enjoyable and educational experience. However, such visits can never be free from all risks. Farm animals naturally carry a range of microorganisms, some of which may be harmful to people even when the animals appear clean and healthy.

Microorganisms such as E. coli O157 and Cryptosporidium are a particular health risk, especially for young children, expectant mothers and the elderly.

Touching animals, consuming contaminated food or drink and contact with dirty surfaces may lead to infection if the microorganism is accidentally passed to the stomach?

Washing hands thoroughly with soap and water immediately after contact with animals will reduce the risk of infection. Hand gels or wipes are not a substitute for washing hands with running water.

There are a number of permanent toilet blocks with washing facilities on the Showground and their locations are clearly indicated on the Showground map.

Always wash your hands thoroughly with soap and warm water
